Requirement for Information under 37 CFR 1.105

Applicant and the assignee of this application are required under 37 CFR § 1.105 to provide the following information that the examiner has determined is reasonably necessary to the examination of this application.

The Applicant is requested to identify any known examples, products, and/or prior art, which describe the Computer Interface Message Distribution protocol version Two (CIMD2) and its relation to the claimed invention. The Examiner has determined that this identification of examples, products, and/or prior art along with an explanation in reference to the claimed invention is pertinent to the issue of patentability in this case.

The Examiner is authorized to require the submission of this information since the Examiner has determined that such information is relevant to the patentability of the claimed invention. See *Star Fruits S.N.C. v. United States* (Fed. Cir. 2005) ("So long as there is some legitimate reason for seeking the information under section 1.105, the applicant has a duty to respond...The Office is authorized under section 1.105 to require any information that is either relevant to patentability under any nonfrivolous legal theory, or is reasonably calculated to lead to such relevant information").

The fee and certification requirements of 37 C.F.R. § 1.97 are waived for those documents submitted in reply to this requirement. This waiver extends only to those documents within the scope of this requirement under 37 C.F.R. § 1.105 that are included in the applicant's first complete communication responding to this requirement. Any supplemental replies subsequent to the first communication responding to this requirement and any information disclosures beyond the scope of this requirement

Art Unit: 2143

under 37 C.F.R. § 1.105 are subject to the fee and certification requirements of 37 C.F.R. § 1.97.

The applicant is reminded that the reply to this requirement must be made with candor and good faith under 37 CFR 1.56. Where the applicant does not have or cannot readily obtain an item of required information, a statement that the item is unknown or cannot be readily obtained will be accepted as a complete response to the requirement for that item.

This requirement is subject to the provisions of 37 C.F.R. §§ 1.134, 1.135 and 1.136 and has a shortened statutory period of two (2) months. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

It is also noted that this requirement is being sent in lieu of an action on the merits. See MPEP 704.14(a) ("A requirement for information under 37 CFR 1.105 is generally prepared as a separate document that may be attached to an Office action on the merits or mailed as a stand alone action. The rule permits a requirement to be included within an Office action, but creating a separate document is preferable because the existence of the requirement is immediately brought to the attention of the recipient and it is more readily routed by the applicant to the parties best able to respond.")
